OWNER'S MANUAL

Safety and Reference

* <u>Disclaimer</u>

LG LED TV applies LCD screen with LED backlights.

Please read this manual carefully before operating your set and retain it for future reference.

The model and serial number of the product are located on the back and on one side of the product. Record them below in case you ever need service.

Serial No.

Before reading this manual

- Read this manual thoroughly before operating your TV, and keep it for future reference
- On the website you can download the manual including installation, using, troubleshooting, specifications, license etc and view its contents on your PC or
- User Guide: For more information about this TV, read the USER GUIDE embedded in the product. (Depending on model) - To open the USER GUIDE 0 / 0 \rightarrow : \rightarrow [Support] \rightarrow [User Guide]

Separate Purchase

- Separate purchase items can be changed or modified for guality improvement without any notification. Contact your dealer to buy these items. These devices only work with certain models.
- The model name or design may be changed depending on the upgrade of product functions, manufacturer's circumstances or policies.
- Magic Remote Control
- Check whether your TV model supports Bluetooth in the Wireless Module Specification to verify whether it can be used with the Magic Remote.
- A cable to connect antennas and external devices must be purchased separately.

- Product specifications or contents of this manual may be changed without prior notice due to upgrade of product functions.
- The items supplied with your product may vary depending on the model.
- Image shown may differ from your TV.

Warning! Safety instructions

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION : TO REDUCE THE RISK OF ELECTRIC SHOCK. DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER TO QUALIFIED SERVICE

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient \nearrow magnitude to constitute a risk of electric shock to persons.

🔨 This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING · TO REDUCE THE RISK OF FIRE AND FLECTRIC SHOCK. DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE

- TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES OR OTHER ITEMS WITH OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES
- Do not place the TV and/or remote control in the following
- Keep the product away from direct sunlight.
- An area with high humidity such as a bathroom. Near any heat source such as stoves and other devices that produce
- Near kitchen counters or humidifiers where they can easily be exposed to steam or oil.
- An area exposed to rain or wind.
- Do not expose to dripping or splashing and do not place objects filled with liquids, such as vases, cups, etc. on or over the apparatus (e.g., on shelves above the unit).

- Near flammable objects such as gasoline or candles, or expose the TV to direct air conditioning.
- Do not install in excessively dusty places.
- Otherwise, this may result in fire, electric shock, combustion/explosion, malfunction or product deformation.
- Ventilation
- Install your TV where there is proper ventilation. Do not install in a confined space such as a bookcase.
- Do not install the product on a carpet or cushion.
- Do not block or cover the product with cloth or other materials while unit is plugged in.
- Take care not to touch the ventilation openings. When watching the TV for a long period, the ventilation openings may become hot.

Protect the nower cord from physical or mechanical abuse, such as being twisted, kinked, ninched, closed in a door, or walked upon. Pay particular attention to plugs, wall outlets, and the point where the cord exits the

- Do not move the TV whilst the Power cord is plugged in.
- Do not use a damaged or loosely fitting power cord.
- Be sure to grasp the plug when unplugging the power cord. Do not pull on the power cord to unplug the TV.
- Do not connect too many devices to the same AC power outlet as this could result in fire or electric shock

Disconnecting the Device from the Main Power

- The power plug is the disconnecting device. In case of an emergency, the power plug must remain readily accessible.
- Do not let your children climb or cling onto the TV. Otherwise, the TV may fall over, which may cause serious injury.

Outdoor Antenna Grounding (Can differ by country):

- If an outdoor antenna is installed, follow the precautions below. An outdoor antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can come in contact with such power lines or circuits as death or serious injury can occur.
- Never touch this apparatus or antenna during a lightning storm. You may he electrocuted.
- Make sure the power cord is connected securely to the TV and wall socket if not secured damage to the Plug and socket may occur and in extreme cases a fire may break out.
- Do not insert metallic or inflammable objects into the product. If a foreign object is dropped into the product, unplug the power cord and contact the customer service.
- Do not touch the end of the power cord while it is plugged in. You may

• If any of the following occur, unplug the product immediately and contact your local customer service.

The product has been damaged.

connected to the unit if not unplugged in.

- If water or another substance enters the product (like an AC adapter, nower cord. or TV).
- If you smell smoke or other odors coming from the TV.
- When lightning storms or when unused for long periods of time. Even the TV is turned off by remote control or button, AC power source is

• Do not use high voltage electrical equipment near the TV (e.g., a bug zanner). This may result in product malfunction.

- Do not attempt to modify this product in any way without written authorization from LG Electronics. Accidental fire or electric shock can occur. Contact your local customer service for service or repair. Unauthorized modification could void the user's authority to operate
- Use only an authorized attachments / accessories approved by LG Flectronics Otherwise, this may result in fire, electric shock, malfunction. or product damage.

Handle the adapter carefully to avoid dropping or striking it. An impact

- Never disassemble the AC adapter or power cord. This may result in fire or electric shock.
- could damage the adapter. To reduce the risk of fire or electrical shock, do not touch the TV with wet
- hands. If the power cord prongs are wet or covered with dust, dry the power plug completely or wipe dust off.

- Store the accessories (battery, etc.) in a safe location out of the reach

this product.

- Do not short circuit, disassemble, or allow the batteries to overheat. Do not dispose of batteries in a fire. Batteries should not be exposed
- to excessive heat. Caution: Risk of fire or explosion if the battery is replaced by an
- incorrect type.

- When moving, make sure the product is turned off, unplugged, and all cables have been removed. It may take 2 or more people to carry larger TVs. Do not press or put stress on the front panel of the TV.
- Otherwise, this may result in product damage, fire hazard or injury. Keep the packing anti-moisture material or vinvl packing out of the reach
- Do not allow an impact shock, any objects to fall into the product, and do not drop anything onto the screen.
- Do not press strongly upon the panel with a hand or a sharp object such as a nail, pencil, or pen, or make a scratch on it. It may cause damage

 When cleaning, unplug the power cord and wipe gently with a soft/ dry cloth. Do not spray water or other liquids directly on the TV. Do not clean your TV with chemicals including glass cleaner, any type of air freshener, insecticide, lubricants, wax (car, industrial), abrasive, thinner, benzene, alcohol etc., which can damage the product and/ or its panel. Otherwise, this may result in electric shock or product

Installation

Lifting and moving the TV

Please note the following advice to prevent the TV from being scratched or damaged and for safe transportation regardless of its type and size.

- It is recommended to move the TV in the box or packing material that the TV originally came in. Refore moving or lifting the TV, disconnect the power cord and all cables
- When holding the TV, the screen should face away from you to avoid
- Hold the side and bottom of the TV frame firmly. Make sure not to hold the transparent part, speaker, or speaker grill area.
- When transporting a large TV, there should be at least 2 people. When transporting the TV. do not expose the TV to jolts or excessive.
- When transporting the TV, keep the TV upright, never turn the TV on its side or tilt towards the left or right.
- Do not apply excessive pressure to cause flexing / bending of frame chassis as it may damage screen.
- When handling the TV, be careful not to damage the protruding buttons.

- Avoid touching the screen at all times, as this may result in damage to
- When attaching the stand to the TV set, place the screen facing down on a cushioned table or flat surface to protect the screen from scratches.

Mounting on the Table

- 1 Lift and tilt the TV into its upright position on a table.
- Leave a 10 cm (minimum) space from the wall for proper ventilation.
- Connect the power cord to a wall outlet.

/ WARNING

 Do not apply foreign substances (oils, lubricants, etc.) to the screw parts when assembling the product. (Doing so may damage the product.)

- If you install the TV on a stand, you need to take actions to prevent the product from overturning. Otherwise, the product may fall over, which may cause injury.
- Do not use any unapproved items to ensure the safety and product life Any damage or injuries caused by using unapproved items are not
- covered by the manufacturer's warranty Make sure that the screws are inserted correctly and fastened securely. (If they are not fastened securely enough, the TV may tilt forward after
- being installed.) Do not use too much force and over tighten the screws: otherwise screw may be damaged and not tighten correctly. If a television is not positioned in a sufficiently stable location, it can
- be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as: - Using cabinets or stands recommended by the manufacturer of the
- Only using furniture that can safely support the television.
- Ensuring the television is not overhanging the edge of the supporting
- Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
- Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television or its controls.

Securing TV to the Wall

- 1 Insert and tighten the eye-bolts, or TV brackets and bolts on the back of
- If there are bolts inserted at the eve-bolts position, remove the bolts
- 2 Mount the wall brackets with the bolts to the wall. Match the location of the wall bracket and the eye-bolts on the rear of the TV.
- 3 Connect the eye-bolts and wall brackets tightly with a sturdy rope. Make sure to keep the rope horizontal with the flat surface.
- Use a platform or cabinet that is strong and large enough to support the
- · Brackets, bolts and ropes are not provided. You can obtain additional accessories from your local dealer.

Attach an optional wall mount bracket at the rear of the TV carefully and

Mounting to the Wall

install the wall mount bracket on a solid wall perpendicular to the floor. When you attach the TV to other building materials, please contact qualified personnel. LG recommends that wall mounting be performed by a qualified professional installer. We recommend the use of LG's wall mount bracket. LG's wall mount bracket is easy to move with cables connected. When you do not use LG's wall mount bracket, please use a wall mount bracket where the device is adequately secured to the wall with enough space to allow connectivity to external devices. It is advised to connect all the cables before

installing fixed wall mounts.

- Remove the stand before installing the TV on a wall mount by performing the stand attachment in reverse.
- For more information of screws and wall mount bracket, refer to the Senarate nurchase
- If you intend to mount the product to a wall, attach VESA standard mounting interface (optional parts) to the back of the product. When you install the set to use the wall mounting bracket (optional parts), fix it carefully so as not to drop.
- When mounting a TV on the wall, make sure not to install the TV by hanging the power and signal cables on the back of the TV.
- Do not install this product on a wall if it could be exposed to oil or oil mist. This may damage the product and cause it to fall.
- When installing the wall mounting bracket, it is recommended to cover the stand hole using tape, in order to prevent the influx of dust and insects. (Depending on model)

Starting TV

Turning on the TV

You can simply operate the TV functions, using the button.

Power On (Press) Power Off¹⁾ (Press and Hold) Menu Control (Press²⁾)

Menu Selection (Press and Hold3) 1) All running apps will close, and any recording in progress will stop. (Depending on country)

2) You can access and adjust the menu by pressing the button when TV is on.

3) You can use the function when you access menu control

If the image quality is poor with an antenna connected, try to realign the

Connect the TV to a satellite dish to a satellite socket with a satellite RF cable

• Use a signal splitter to use more than 2 TVs.

An antenna cable and converter are not supplied.

- If the TV is turned on for the first time after it was shipped from the factory, initialization of the TV may take a few minutes.
 - The device must be easily accessed to a location outlet near the access. Some devices are not made by turning on / off button, turning off the

Connections

Connect various external devices to the TV and switch input modes to select an external device. For more information of external device's connection, refer to the manual provided with each device.

- When connecting the HDMI cable, the product and external devices should be turned off and unplugged.
- Supported HDMI Audio format (Depending on model): Dolby Digital / Dolby Digital Plus (32 kHz, 44.1 kHz, 48 kHz). PCM (32 kHz, 44.1 kHz, 48 kHz, 96 kHz, 192 kHz)

- Use a certified cable with the HDMI long attached
- If you do not use a certified HDMI cable, the screen may not display or a connection error may occur.
- Recommended HDMI Cable Types
- Ultra High Speed HDMI®/™ cable (3 m or less)

Some USB Hubs may not work. If a USB device connected using a USB Hub is not detected, connect it to the USB port on the TV directly.

 For an optimal connection, HDMI cables and USB devices should have hezels less than 10 mm thick and 18 mm width. Use an extension cable that supports USB 2.0 if the USB cable or USB memory stick does not fit into your TV's USB port.

External Devices

Available external devices are: Blu-ray player, HD receivers, DVD players, VCRs, audio systems, USB storage devices, PC, gaming devices, and other external

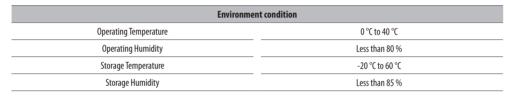

- The external device connection may differ from the model.
- In PC mode, there may be noise associated with the resolution, vertical pattern, contrast or brightness. If noise is present, change the PC output to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the [Picture] menu until the picture is
- In PC mode, some resolution settings may not work properly depending on the graphics card.
- When connecting to a wired LAN, use a CAT7 cable with high-speed Internet transmission. (Only when LAN port is provided.)

Troubleshooting

annot control the TV with he remote control.	 Check the remote control sensor on the product and try again. Check if there is any obstacle between the product and the remote control. Check if the batteries are still working and properly installed (⊕ to ⊕, ⊝ to ⊝). 	
o image display and no ound is produced.	 Check if the product is turned on. Check if the power cord is connected to a wall outlet. Check if there is a problem in the wall outlet by connecting other products. 	
he TV turns off suddenly.	 Check the power control settings. The power supply may be interrupted. Check if the auto-off function is activated on the settings related time. If there is no signal while the TV is on, the TV will turn off automatically after 15 minutes of inactivity. 	
/hen connecting to the C (HDMI), no signal is etected.	 Turn the TV off/on using the remote control. Reconnect the HDMI cable. Restart the PC with the TV on. 	
bnormal Display	 If the product feels cold to the touch, there may be a small "flicker" when it is turned on. This is normal, there is nothing wrong with product. This panel is an advanced product that contains millions of pixels. You may see tiny black dots and/or brightly coloured dots (red, blue or green) at a size of 1 ppm on the panel. This does not indicate a malfunction and does not affect the performance and reliability of the product. This phenomenon also occurs in third-party products and is not subject to exchange or refund. You may find different brightness and colour of the panel depending on your viewing position(left/right/top/down). This phenomenon occurs due to the characteristic of the panel. It is not related with the product performance, and it is not malfunction. 	
	 Displaying a still image for a prolonged period of time may cause image sticking. Avoid displaying a fixed image on the TV screen for a long period of time. 	
enerated Sound	 "Cracking" noise: A cracking noise that occurs when watching or turning off the TV is generated by plastic thermal contraction due to temperature and humidity. This noise is common for products where thermal deformation is required. 	

• When cleaning the product, be careful not to allow any liquid or foreign objects to enter the gap between the upper, left or right side of the panel and the quide panel. (Depending on model)

does not affect the performance and reliability of the product.

Electrical circuit humming/panel buzzing: A low level noise is generated from a high-speed switching circuit, which

supplies a large amount of current to operate a product. It varies depending on the product. This generated sound

- · Make sure to wring any excess water or cleaner from the cloth.
- Do not spray water or cleaner directly onto the TV screen.
- Make sure to spray just enough of water or cleaner onto a dry cloth to wipe the screen.

Regulatory

WARNING! (STABILITY HAZARD)

A television set may fall, causing serious personal injury or death, Many injuries, particularly to children, can be avoided by taking simple precautions such as-

- ALWAYS use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
- ALWAYS use furniture that can safely support the television set.
- ALWAYS ensure the television set is not overhanging the edge of the supporting furniture.
- ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls
- ALWAYS route cords and cables connected to your television so they
- cannot be tripped over, pulled or grabbed
- NEVER place a television set in an unstable location. NEVER place the television set on tall furniture (for example. cupboards or bookcases) without anchoring both the furniture and the
- NEVER place the television set on cloth or other materials that may be located between the television set and supporting furniture.

television set to a suitable support.

NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied.
